CORE SKILLS

- AutoCAD (2D Drafting)
- Civil Drafting
- Quantity Take-off & Estimation
- BOQ Preparation
- Cost Estimation
- Project Documentation
- Drawing Revisions & Coordination
- MS Excel
- MS Word

LANGUAGES KNOWN

- English
- Kannada

EDUCATION

Diploma in Civil Engineering

M.E.S R.N. Shetty Polytechnic, Sirsi

2016 – 2019

PRIYANKA SHEKHAR NAIK

DIPLOMA CIVIL ENGINEER

PROFESSIONAL SUMMARY

Detail-oriented Diploma Civil Engineer with 3 years of hands-on experience in civil drafting, quantity estimation, and project documentation within a consultancy office environment. Proficient in AutoCAD for preparing accurate civil and architectural drawings, performing quantity take-offs, and compiling Bills of Quantities (BOQ) and cost estimates. Recognized for strong coordination with engineers and clients during drawing revisions, consistent accuracy in documentation, and reliable support during project planning and execution phases. Seeking to leverage proven technical and organizational skills to contribute effectively to a growth-oriented engineering or construction organization.

WORK EXPERIENCE

Draftsman & Estimation Engineer

Civil Engineering Consultancy Office | 3 Years

- Prepared accurate and detailed civil and architectural working drawings using AutoCAD, ensuring compliance with project specifications and client requirements.
- Carried out quantity take-offs and quantity estimations for a range of construction elements, supporting reliable project costing and resource planning.
- Prepared comprehensive Bills of Quantities (BOQ) and detailed cost estimates to assist in budgeting and tendering processes.
- Coordinated closely with engineers, architects, and clients to manage drawing revisions, ensuring timely turnaround and design accuracy.
- Maintained organized project documentation and records, improving traceability and ease of reference for ongoing and completed projects.
- Provided planning and execution support to project teams, contributing to smoother on-site implementation and reduced rework.
- Liaised between design and execution teams to resolve drawing discrepancies promptly, minimizing project delays.

KEY STRENGTHS

- Attention to Detail
- Teamwork
- Communication Skills.
- Time Management
